
A
Mean log2(CPM + 1)
Pearson r = 1.000
Synthetic (per gene)
Real (per gene)
B
Variance of log2(CPM + 1)
Pearson r = 0.999, median ratio = 1.06
Synthetic (per gene)
Real (per gene)
C
Fraction of zero counts
Pearson r = 1.000
Synthetic (per gene)
Real (per gene)
D
Library size
median 11.0M real, 11.1M synthetic
Total counts per sample (millions)
Real
Synthetic
